Applications are invited for the post of Fellow in Clinical Leadership under the Darzi Fellowship Programme. This programme is coordinated by the London Deanery in partnership with the NHS Leadership Academy. The Darzi Fellowship is open to specialty registrars (ST3+) in a recognised London Deanery specialty school training programme. The post will commence in August/September 2013 and last for one year.

The successful candidate will have a unique opportunity to develop organisational and leadership skills necessary for their future roles as consultants and clinical leaders. Mentored by the Dr Elizabeth Haxby, Lead Clinician in Clinical Risk, with the direct involvement of two intensive care consultants, the Fellow will embed the best possible customer experience as a core value in an Adult Intensive Care Unit. Key aspects of this work-based QIPP project will be to ensure that interventions are sustained beyond the period of the Fellowship and to establish processes that apprise stakeholders about patient and family experiences on the ICU. This will involve both the introduction of attitudinal changes, together with implementation of processes involving new information technology. This project will be complemented with a bespoke (university accredited) leadership development programme delivered by the NHS Leadership Academy. This supporting programme includes taught elements, support through action learning sets and opportunities for coaching and mentoring. Collaborative working and knowledge sharing will be encouraged and facilitated through Synapse, the London Deanery's virtual learning environment.

Post holders will continue to undertake a limited amount of clinical work commensurate with their level of experience. This work will encompass responsibilities to the intensive care unit, high dependency unit and adult respiratory ECMO service at the Royal Brompton Hospital.

The Darzi Fellowship is counted as out of programme experience (OOPE). Applicants will need to concurrently apply to their training programme for a period of OOPE. For an information pack please contact Michael Park, Medical Recruitment Manager, Royal Brompton and Harefield NHS Foundation Trust, Sydney Street, London, SW3 6NP.
Applications should be made through the NHS Jobs website (www.jobs.nhs.uk) using reference 312-CF-DARZI-ICU-RBH-0313.

Closing date: 5th April 2013
Interview date: 19th April 2013
